

THE **NEW** Tenor Saxophone mouthpiece

Concept

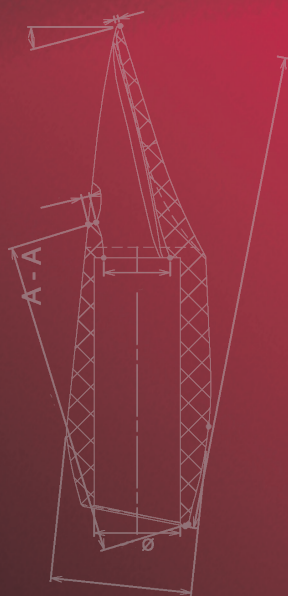

Design & acoustic precision

After the release of the alto and soprano mouthpieces, the **Concept** range for saxophone quickly stood out as the new reference.

Henri SELMER Paris extends the **Concept** family and unveils the **Concept** mouthpiece for Tenor saxophone.

Combining ease of playability and a rich tone, **the Concept Tenor mouthpiece** distinguishes itself by its refined design aiming at the comfort of the musician.

An acoustic promise enhanced by ergonomics at the service of the musician and its music.

Opening: 2.10 mm
